

**REMARKS**

**I. Status of Application**

Claims 1, 2, 4, 9-11, 17 and 27-38 are all the claims currently pending in the present Application. By this Amendment Applicant hereby amends claim 9 for purposes of clarity and precision of language. By this Amendment Applicant also adds new claim 38. Ample support for the newly added claim can be found throughout the specification.

**Statement of Substance of the Interview**

Applicant's representative thanks the Examiner, and his Supervisor, for the courteous telephonic Interview of April 16, 2009. An Examiner's Interview Summary Record (PTO-413) has not been provided to the Applicant's representative after the Interview. The Statement of Substance of the Interview is as follows:

During the Interview, claim 9 was discussed. Applicants representative requested clarification regarding the rejection of claim 9. The Examiners indicated that claim 9 was being interpreted broadly and as such could be anticipated by Berger. Applicants respectfully disagreed.

**II. Claim Rejections Under 35 U.S.C. § 102**

The Examiner has rejected claims 9 under 35 U.S.C. § 102(e) as allegedly being anticipated by Berger et al. (U.S. Patent No. 6,414,693). Applicant respectfully disagrees.

While Applicants disagree with the Examiner's rejection, Applicants have amended this claim so as to expedite the prosecution of this Application. Claim 9 is not being amended for reasons of patentability.

With respect to claim 9, Berger does not teach, or even suggest, at least "an information entry selecting means to enter design information without downloading public design data ...

wherein **design information entered by the user is correction data.**” Accordingly, Applicants respectfully request that the rejection of claim 9 be withdrawn.

**III. Allowed Claims**

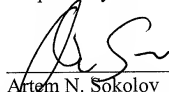

The Examiner’s Advisory Action of March 19, 2009 indicates that claims 1, 2, 4, 10, 11, 17 and 27-37 are allowed.

**IV. Conclusion**

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

This Amendment is being filed via the USPTO Electronic Filing System (EFS).
